

LOCK'ER[®] DOWN

Security Products

Instructions for Model 2045 Console Safe

1. If you have a combination lock, it is easier to set the combination before installing the safe.
2. Open console and empty contents .
3. Place lid section in console nose down to the front all the way to the bottom.
4. Hold lid section up against top of opening and add side pieces loosely using supplied nuts. These fit tightly to prevent rattle.
5. Push the bottom of the side brackets outward as far as they will go, then attach them to the console with the supplied self tapping screws.
6. Now you can tighten all fasteners.

Enjoy your purchase.
