Installation Instructions for Model 2072 & 2072EX Console Safe

1. It always a good idea to set the combination before you install the safe.
2. Clear the contents of your console including the rubber pad in the bottom.
3. Remove the 2 file folder rails and retain.
4. Remove the 2 bolts in the bottom of the console
5. Remove the 2 side fillers from the safe and slide the safe into the console.
6. Secure the safe to the bottom of the console with the included bolts.
7. Reattach the fillers to the safe and replace the file folder rails.
8. Enjoy your purchase.

Fillers

made in USA ®
